EDUCATION

Dhanmondi Govt. Boys' High School, Dhanmondi, Dhaka—SSC.
August 2011- February 2020.
GPA-4.94, Department- Science

Mohammadpur Govt. College, Mohammadpur, Dhaka—HSC.
July 2020- December 2022
GPA-4.83, Department- Science

BRAC University, Merul Badda, Dhaka—
Bachelors in Science.
May 2023- Present
Department- CSE

LANGUAGES

- Bangla(Native)
- English(Fluent)
- Urdu

HOBBY

- Reading fiction, non-fiction.
- Playing outdoor sports
- Poetry writing

MD. RAWNAK AHASAN

PROFILE

Computer Science and Engineering student at BRAC University with a passion for AI, Cybersecurity, and Robotics. Skilled in tech development and marketing, with hands-on experience in competitions and projects. Always eager to explore and innovate in the tech world.

EXPERIENCE

- **Urbor AgroFintech** - Head of Human Resources and Communications. (2025 - 2026)
 - Notes employee engagement.
 - Checks crisis composure and synthesizes complexity.
- **BRAC University Computer Club** - Assistant Director, Finance Department. (2024 - Present)
 - Participated and directed in competitive events, projects.
 - Assisting in organizing activities and fostering collaboration within the club.
- **BRAC University Electrical and Electronics Club** - Apprentice, Research & Development Department (2025 - Present)
 - Contributed to research initiatives.
 - Managed and volunteered in development activities.
- **Team BIONOVA**- Co-Lead(Technical team). (2025 - Present)
 - Worked on development of the machine.
 - Developed circuits and integration.
- **Team Aronnyok**- Chief Technical Lead. (2025 - Present)
 - Worked on Research and development of the product.
 - Lead the team to win various competitions.
- **BRAC University History Club** - Senior Executive, Marketing & Public Relations Department (2025 - Present)
 - Engaged in historical discussions, events, and research activities.
 - Promoted historical awareness.
- **Robotics Club of BRAC University (ROBU)** - General member, Finance & Marketing Department. (2024 - Present)
 - Engaged in hands-on robotics projects and workshops.
 - Contributed to the design and development of innovative robotic solutions.
- **IEEE BRAC University Student Branch** - General Member, Computer Society. (2025 - Present))
 - Participated in tech seminars, workshops, and collaborative projects.
 - Enhancing knowledge in computer science and contributing to society-driven initiatives.

PROJECTS

1. Algae Bio-Reactor for Industrial Pollution Control -Technical Lead

- Designed a *Chlorella vulgaris*-based algae bioreactor to sequester CO₂ and industrial pollutants, improving air quality in Dhaka's industrial zones and BRAC University.
- Achieved 2nd position in the national round of an international science fair.

2. End-to-End Machine Learning Pipeline for Subscription Attrition - Contributor

- Developed a customer churn prediction pipeline using Python, performing extensive EDA on a 1,500-record dataset to identify key behavioral drivers of customer retention.
- Optimized data quality and feature engineering by implementing mean imputation for missing values, Label/One-Hot encoding for categorical variables, and correlation-based feature selection to reduce multicollinearity.

3. Real-Time Crime Reporting & Visualization Website (Emergency BD)- Technical Lead

- Built a real-time crime visualization system enabling GPS-based incident reporting and admin moderation to enhance public safety awareness in Bangladesh.
- Implemented an administrative ecosystem including a "Danger Zone" console for data moderation, user account suspension, and a custom token-based credit system to ensure data integrity and prevent spam reporting.

4. Nova Siege (3D Space Shooter) - Contributor

- Built a 3D space shooter using Python and PyOpenGL.
- Implemented custom rendering, weapon physics, and local multiplayer.

ACHIEVEMENTS & CERTIFICATIONS

- Semi-Finalist - **Undergrad Startup Challenge 2025, BRAC University Entrepreneurship Development Forum (BUEDF).**
- Silver Medalist - **University & Life Science Category, ISIF Bangladesh Round, 2025.**
- 2nd Runner-Up - **IPE Carnivesta, AUST IPE Society, 2025.**
- Certificate of Completion - **Introduction to Cyber Security, Cisco Networking Academy, 2026.**
- Certificate of Completion - **Introduction to Data Analytics, Bohubrihi, 2024.**
- Certificate of Completion - **Introduction to Python Programming, Bohubrihi, 2024.**
- Certificate of Completion - **Pathway to Software Engineering, Bohubrihi, 2024.**
- Certificate of Participation - **Battle of insights, Data Solution-360, 2024.**
- Certificate of Appreciation - **Administration Department, Outlive, 2021.**
- Certificate of Coordinator - **Academics Department, Quests of Latent Talent, 2021.**

SKILLS

1. Programming & Development:

- Python, C, JavaScript, MySQL, PHP.
- Beginner in MERN Stack & Laravel.

2. Robotics & Hardware:

- ROS2
- Sensor integration, basic circuit design, Arduino-based automation

3. Soft Skills:

- Marketing & Brand Representation
- Project Presentation

VOLUNTEERING

- **Quests of Latent Talent** - Senior Co-ordinator, Academics Department. (2021 - 2022)
 - Volunteered for event, marketing and content writing.
 - Managed sponsorship for event and expanded people engagement.
- **Outlive** - Co-ordinator, Administrative Department. (2021 - 2022)
 - Managed schedules, documentation, and internal communications.
 - Supported cross-team coordination and streamlined daily operations.
